

## INF-651 – Front End Web Development

### Assignment 1

Robert Hambley

28 Aug 2019

Currently, the Spring Meadows Homeowner's Association (HOA) does not have a website. I plan to build a website for the HOA.

Similar sites:

<http://www.hhhoainc.com/home.html>

[http://www.neighborhoodlink.com/Stone\\_Creek\\_HOA](http://www.neighborhoodlink.com/Stone_Creek_HOA)

<https://lrmlhoa.org/>

The information for Spring Meadows HOA would be used and the design is currently intended to include the following pages:

#### Home Page

Spring Meadows Home Owner's Association

< background image of the HOA sign>

Home | Documents | News | Contact | Meeting Notes | Violations | Contact | Links

<welcome Message>

<image of google maps outlining the HOA>

<Current Board Members>

## HOA documents and Forms

Spring Meadows Home Owner's Association  
< background image of the HOA sign>

Home | Documents | News | Contact | Meeting Notes | Violations | Contact | Links

Current HOA guidelines: <PDF document>

Updates: <chronological list of updates to the guidelines>

Architectural approval form: <PDF document to download and fill out for approvals>

HOA responsibilities

## News / Updates / Email Submission

Link to items of interest to the HOA community:

[Kenosha City](#)  
[Kenosha County](#)  
[State of WI](#)  
[Local Schools](#)

Neighborhood owned and suggested links:

The site will have a row of links beneath the banner to each of the sub-pages. There will be a breadcrumb line showing where they are on the site beneath that.

The entire site will have a background color and that information area will be on top of this in white.

The site will be mobile friendly and support the smart phone and the tablet sizes as well as the standard browser.
